Telet Technology are getting ready to open up their application process for their Apprenticeship Schemes 2021 and would like to invite you to join their *Live event* to learn more about what they do and how an apprenticeship with Telet could be what you are looking for!!
Interested, then come and find out.....

About Telet:

Telet has a great heritage and a distinctive company culture built on Service, Commitment and Value. We specialise in the effective operation of critical national infrastructure and are at the heart of many of the UK's and Ireland's best-known brands. We design, deliver and support solutions and services which enable organisations to create, improve and operate the ICT and communication networks that their businesses depend on. Our industry expertise, technology partnerships, accreditations and committed teams make Telet the partner of choice for organisations at the forefront of the digital revolution.

What will the session cover:

The session will introduce Telet, discuss what students can gain from the apprenticeship pathway, provide valuable key hints and tips on how to get the right apprenticeship, and feature talks from our current and past apprentices (showing how apprenticeships are a great option for people of every background) – as well as one or two engaging activities! We will also introduce our 2021 opportunities for those students who may be considering a programme this year.
